If we all would practice insidebathing, what a gratifying change

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of phate in it, as a harmless means of washing out of the stomach, liver, kidleys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and puri-fying the entire alimentary canal be-fore putting more food into the stemach.

Millions of people who had their turn at constipation, billious attacks, acid stomach, nervous days and sleepacid stomach, nervous days and sleep-less nights have become real cranks about the morning inside-bath. Neckwear Novelties

It is doubtful if designers have ever lavished so much attention or such good taste upon such an accessory to the costume, as they have this season. We have selected a charming array from the hundreds of designs which are now offered, and our Neckwear Department is now a center of interest for all.

Here is a new collar, there a new set, and then a wonderful cape-like collar. What beauties they are. One surely cannot help admiring every one.

And collars and sets are really quite necessary to "set off" these new suits and dresses.

TO WEAR WITH THE NEW SUIT

Broadcloth, Bensetine, Satin Collars and Cuffs are the "really new" thing, and they are so pretty, too. They are rich in effect, distinctly clever, and give a smart tone to the costume. They make the new suit irred sistible—they make the old suit new and desirable.
